801 Pennsylvania Ave, Suite 219252  
Kansas City, MO 64105-1307

**Please retain this supplement with your Summary Prospectus for reference.**

**O'SHAUGHNESSY MARKET LEADERS VALUE FUND**

**Summary Prospectus  
November 28, 2024  
OFVIX (Class I)**

Before you invest, you may want to review the O'Shaughnessy Market Leaders Value Fund's (the "Fund") Statutory Prospectus and Statement of Additional Information ("SAI"), which contain more information about the Value Fund and its risks. The current Statutory Prospectus and SAI dated November 28, 2024, are incorporated by reference into this Summary Prospectus. You can find the Fund's Statutory Prospectus, SAI, reports to shareholders and other information about the Fund online at [www.osfunds.com](http://www.osfunds.com). You can also get this information at no cost by calling the Fund toll-free at 1-877-291-7827 or by sending an email request to [info@osfunds.com](mailto:info@osfunds.com).

**Investment Objective**

The O'Shaughnessy Market Leaders Value Fund's (the "Fund") investment objective is to seek long-term capital appreciation and current income.

**Fees and Expenses of the Fund**

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in Class I shares, which are not reflected in the tables or examples below.

<b>SHAREHOLDER FEES</b> (fees paid directly from your investment)	<b>Class I</b>
	None
<b>ANNUAL FUND OPERATING EXPENSES</b> (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.40%
Other Expenses	0.14%
Total Annual Fund Operating Expenses	<u>0.54%</u>

*Example*

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
\$55	\$173	\$302	\$677

*Portfolio Turnover*

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 53.57% of the average value of its portfolio.

## Principal Investment Strategies of the Fund

Under normal market conditions, the Fund invests primarily in a diversified portfolio of common stocks and other equity securities of companies of all sizes, including but not limited to, American Depositary Receipts (“ADRs”), preferred stocks, limited partnerships, and convertible securities. O’Shaughnessy Asset Management, LLC (the “Adviser”) employs a bottom-up, quantitative, factor-based approach to security selection based on research and analysis of historical data. The Adviser may eliminate or substitute factors at its discretion. Portfolio securities may be sold generally upon periodic rebalancing of the Fund’s portfolio. For selling decisions, the Adviser considers the same factors it uses in evaluating a security for purchase and generally sells securities when it believes such securities no longer meet its investment criteria. The Fund may from time to time emphasize investment in certain sectors of the market.

The Adviser screens securities using a factor-based model that seeks to identify market leading companies by analysis of a number of factors including, but not limited to, low valuations, strong financial strength, conservative earnings reporting (earnings quality), strong earnings growth, market capitalization and volume. The Fund selects companies that offer a strong “shareholder yield” – the combination of dividend yield and the rate at which the company is buying back shares of its stock – at the time of initial purchase. While stocks often have both a strong dividend yield and a high rate of share repurchases, that may not always be the case. An individual stock may be deemed to be attractive even if its entire shareholder yield is generated from either dividends or share repurchases. Due to ongoing research, the Adviser may modify the characteristics utilized in the investment strategy, without prior notice to shareholders, in order to better achieve the investment objective.

The Fund will primarily invest in common stocks of U.S. issuers but may also invest up to 20% of its total assets in common stocks of foreign securities and issuers, which may also include issuers located in emerging markets and frontier markets, also known as “pre-emerging markets,” as defined by countries listed on the Morgan Stanley Capital International (“MSCI”) Emerging Markets Index and/or the MSCI Frontier Markets Index. The Fund may invest up to 25% of its total assets in REITs or foreign real estate companies. The Fund may also invest up to 20% of its total assets in depositary receipts of foreign based companies (*i.e.*, ADRs, European Depositary Receipts (“EDRs”), and Global Depositary Receipts (“GDRs”), etc.) whose common stock is not itself listed on a U.S. exchange. Depositary receipts may be purchased through “sponsored” or “unsponsored” facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depositary, whereas a depositary may establish an unsponsored facility without participation by the issuer of the depositary security. The Fund may invest up to 10% of its total assets in other investment companies, including exchange-traded funds (“ETFs”).

The Fund may also invest up to 100% of the Fund’s total assets in cash, cash equivalents, and high-quality, short-term debt securities, money market mutual funds and money market instruments for temporary defensive purposes. The Fund may also invest up to 50% of its total assets in ETFs that are aligned with the Fund’s principal investment strategies, for temporary defensive purposes.

## Principal Risks of Investing in the Fund

Losing all or a portion of your investment is a risk of investing in the Fund. The following principal risks could affect the value of your investment:

- **Equity Securities Risk.** The price of equity securities may rise or fall because of economic or political changes or changes in a company’s financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors or industries selected for the Fund’s portfolio or the securities market as a whole, such as changes in economic or political conditions. The values of convertible securities tend to decline as interest rates rise and, because of the conversion feature, tend to vary with fluctuations in the market value of the underlying equity security.
- **General Market Risk.** Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. Securities in the Fund’s portfolio may underperform in comparison to securities in general financial markets, a particular financial market or other asset classes due to a number of factors, including: inflation (or expectations for inflation); deflation (or expectations for deflation); interest rates; market instability; financial system instability; debt crises and downgrades; embargoes; tariffs; sanctions and other trade barriers; regulatory events; other governmental trade or market control programs and related geopolitical events. In addition, the value of the Fund’s investments may be negatively affected by the occurrence of global events such as war, terrorism, environmental disasters, natural disasters or events, country instability, and infectious disease epidemics or pandemics. Conflict, loss of life and disaster connected to ongoing armed conflict between Ukraine and Russia in Europe and Israel and Hamas in the Middle East could have severe adverse effects on the region, including significant adverse effects on the regional or global

economies and the markets for certain securities. The U.S. and the European Union imposed sanctions on certain Russian individuals and companies, including certain financial institutions, and have limited certain exports and imports to and from Russia. The war has contributed to recent market volatility and may continue to do so.

- **Value Style Investing Risk.** At times when the value investing style is out of favor, the Fund may underperform other funds that use different investing styles. Value stocks may be purchased based upon the belief that a given security may be out of favor; that belief may be misplaced or the security may stay out of favor for an extended period of time.
- **Large-Sized Companies Risk.** Larger, more established companies may be unable to respond quickly to new competitive challenges like changes in consumer tastes or innovative smaller competitors. In addition, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- **Small- and Medium-Sized Companies Risk.** Small- and medium-sized companies often have less predictable earnings, more limited product lines, markets, distribution channels or financial resources and the management of such companies may be dependent upon one or few key people. The market movements of equity securities of small- and medium-sized companies may be more abrupt and volatile than the market movements of equity securities of larger, more established companies or the stock market in general and small-sized companies in particular, are generally less liquid than the equity securities of larger companies.
- **Sector Risk.** To the extent the Fund invests a significant portion of its assets in the securities of companies in the same sector of the market, the Fund is more susceptible to economic, political, regulatory and other occurrences influencing those sectors.
- **REITs and Foreign Real Estate Company Risk.** Investing in REITs and foreign real estate companies makes the Fund more susceptible to risks associated with the ownership of real estate and with the real estate industry in general, as well as tax compliance risks, and may involve duplication of management fees and other expenses. REITs and foreign real estate companies may be less diversified than other pools of securities, may have lower trading volumes and may be subject to more abrupt or erratic price movements than the overall securities markets.
- **Management Risk.** The Fund is an actively managed portfolio. The Adviser's management practices and investment strategies might not work to meet the Fund's investment objective.
- **Depository Receipts Risk.** The Fund's equity investments may take the form of sponsored or unsponsored depository receipts. Holders of unsponsored depository receipts generally bear all the costs of such facilities and the depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights to the holders of such receipts of the deposited securities.
- **Foreign Securities and Emerging Markets Risk.** The risks of investing in the securities of foreign issuers, including depository receipts, can include fluctuations in foreign currencies, foreign currency exchange controls, political and economic instability, differences in securities regulation and trading, and foreign taxation issues. These risks are greater in emerging markets.
- **Investment Company Risk.** When the Fund invests in an ETF or mutual fund, it will bear additional expenses based on its pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. The Fund also will incur brokerage costs when it purchases ETFs.
- **Frontier Markets Risk.** There is an additional increased risk of price volatility associated with frontier market countries (pre-emerging markets), which may be further magnified by currency fluctuations relative to the U.S. dollar. Frontier market countries generally have smaller economies or less developed capital markets than in more advanced emerging markets and, as a result, the risks of investing in emerging market countries may be magnified in frontier market countries.

## Performance

The following information provides some indication of the risks of investing in the Fund. The bar chart shows the annual return for the Fund's Class I shares from year to year. The table shows how the Fund's average annual returns for 1 year, 5 years, and since inception compare with those of a broad measure of market performance and an additional index that reflects the market sectors in which the Fund invests. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance

information is available on the Fund's website at [www.osfunds.com](http://www.osfunds.com) or by calling the Fund toll-free at 1-877-291-7827.

The Fund's calendar year-to-date return as of September 30, 2024 was 20.40%.

During the period of time shown in the bar chart, the Fund's highest quarterly return was 20.85% for the quarter ended December 31, 2020 and the lowest quarterly return was -30.77% for the quarter ended March 31, 2020.

**Average Annual Total Returns  
(for the period ended December 31, 2023)**

	<u>1 Year</u>	<u>5 Years</u>	<u>Since Inception (02/26/2016)</u>
<b>Class I Shares</b>			
Return Before Taxes	17.84%	13.07%	11.79%
Return After Taxes on Distributions	16.68%	12.17%	10.83%
Return After Taxes on Distributions and Sale of Fund Shares	11.31%	10.37%	9.46%
<b>Russell 1000 Total Return Index<sup>(1)</sup></b> (reflects no deduction for fees, expenses, or taxes)	26.53%	15.52%	14.04%
<b>Russell 1000 Value<sup>®</sup> Index<sup>(2)</sup></b> (reflects no deduction for fees, expenses, or taxes)	11.46%	10.91%	10.24%

<sup>(1)</sup> Effective October 4, 2024, in connection with the Securities and Exchange Commission's new Tailored Shareholder Reports rule, the Fund's primary benchmark index changed to the Russell 1000 Total Return Index. The Fund will continue to show index performance for the Russell 1000 Value Index, the Fund's prior benchmark index.

<sup>(2)</sup> The Adviser believes that the additional index reasonably represents the Fund's investment strategy.

The after-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

**Management**

*Investment Adviser:* O'Shaughnessy Asset Management, LLC is the Fund's investment adviser.

*Portfolio Managers:* The following individuals serve as the Fund's portfolio managers:

<b>Portfolio Managers</b>	<b>Since</b>	<b>Primary Title with the Adviser</b>
Scott Bartone	2018	Principal and Portfolio Manager
Daniel Nitiutomo	2022	Managing Director and Portfolio Manager
Claire Noel	2022	Managing Director and Portfolio Manager
Ehren Stanhope	2024	Principal and Portfolio Manager

**Purchase and Sale of Fund Shares**

You may purchase, exchange or redeem Fund shares on any business day by written request via mail (O'Shaughnessy Market Leaders Value Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701), by telephone at 1-877-291-7827, or through a financial intermediary. You may also purchase or redeem Fund shares by wire transfer. Investors who wish to purchase, exchange or redeem Fund shares through a financial intermediary should contact the financial intermediary directly.

Class I shares require a minimum investment of \$10,000, are generally available for purchase only by institutional investors, retirement accounts or high net worth individuals and have no minimum subsequent investment requirements, provided the other eligibility requirements for purchase are met.

**Tax Information**

The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase the Fund through a broker-dealer or other financial intermediary, the Fund and/or the Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
